ACTA BOTANICA NEERLANDICA

Published by the
KONINKLIJKE NEDERLANDSE BOTANISCHE VERENIGING
(Royal Botanical Society of the Netherlands)

Volume XVII

1968
PRINTED BY H. VEENMAN & ZN. - WAGENINGEN

The ACTA BOTANICA NEERLANDICA are the continuation of the "Nederlandsch Kruidkundig Archief" (1846–1951) and the "Recueil des Travaux Botaniques Néerlandais" (1904–1951).

Editorial Committee

M. VROMAN, President – H. P. BOTTELIER – S. J. VAN OOSTSTROOM – A. L. STOFFERS, secretary

No part of this issue may be reproduced in any form, by print, photoprint, microfilm or any other means without written permission from the publisher.

CONTENTS

H. A. VAN DER AA, Petrakia irregularis, a new fungus species 221
F. ADEMA, Iridoid glucosides of species of Lamium and some related genera 423
G. J. H. AMSHOFF, A new species of Clathrotropis from Colombia (Papilionaceae) 103
L. ANKER, On gravi-sensitivity in plants 385
C. C. BERG, Taxonomic and morphological notes on Clarisia (Morac.) . 309
G. BLAAUW-JANSEN and O. H. BLAAUW, Geotropic curvature of Avena coleoptiles in solutions of various osmotic values 273
J. BOT and H. R. VAN DER SPOEL-WALVIUS, Description of Ranunculus repens L. and Ranunculus arvensis L. pollen 173
G. BREDEMEIJER and W. HEINEN, Cutin synthesis in plants. I Free fatty acid movement during cutin synthesis in injured Gasteria verrucosa leaves 15
F. J. A. DANIËLS, Lichens collected during the first Dutch botanical east Greenland expedition to the Angmagssalik area in 1966 345
J. VAN DONSELAAR, Water and marsh plants in the artificial Brokopondo Lake (Surinam, S. America) during the first three years of its existence 183
J. VAN DONSELAAR, Phytogeographic notes on the savanna flora of southern Surinam (South America) 393
J. DULLAART, The indoleacetic acid content of root nodules and roots of Cycas circinalis L. with regard to other root-nodule systems 496
J. H. VAN EMDEN, Penicillifer, a new genus of Hypomycetes from soil . . 55
G. ENGELSMA, The influence of light of different spectral regions on the synthesis of phenolic compounds in gherkin seedlings, in relation to photomorphogenesis IV. Mechanism of far-red action 85
G. ENGELSMA, The influence of light of different spectral regions on the synthesis of phenolic compounds in gherkin seedlings, in relation to photomorphogenesis. V. The temperature dependence 499
TH. W. J. GADELLA and E. KLIPHUIS, Parnassia palustris in the Netherlands 165
TH. W. J. GADELLA, E. KLIPHUIS and E. A. MENNEGA, The chromosome number of Galactites dureaei Spach (Comp.) 281
K. W. GAMS, Die systematische Stellung der Schimmelpilze Fusidium buxi und Verticillium candelabrum 455
S. R. GRADSTEIN and J. H. KERN, A new Carex from Crete 242
G. GROSSE-BRAUCKMANN, Einige Ergebnisse einer vegetationskundlichen Auswertung botanischer Torfuntersuchungen, besonders im Hinblick auf Sukzessionsfragen 59
A. A. HARTMAN, A study on pollen dispersal and sedimentation in the western part of the Netherlands 506
A. J. HAVINGA, Some remarks on the interpretaion of a pollen diagram of a podsol profile 1

W. HEINEN, The distribution and some properties of accumulated silicate in cell-free bacterial extracts 105
J. A. HOEBERICHTS and H. F. LINSKENS, Lipids in ungerminated pollen of Petunia 433
J. J. M. HOOYMANS, Effect of the counter-ion on the uptake of potassium in excised barley roots 313
B. HUISINGA, Model experiments on the movement of statoliths 117
B. HUISINGA, Influence of red light on transport of fluorescein in the mesocotyls of darkgrown Avena seedlings 390
B. HUISINGA, On the influence of transpiration on the distribution of growth in the Avena mesocotyl 467
C. M. KARSSEN, The light promoted germination of the seeds of Chenopodium album L.; II. Effects of (RS)-Abscisic acid 293
J. L. W. KEULARTS and H. F. LINSKENS, Influence of fatty acids on Petunia pollen grains 267
C. KOLLÖFFEL, Activity of alcohol dehydrogenase in the cotyledons of peas germinated under different environmental conditions 70
C. KOLLÖFFEL, Histochemical localization of alcohol dehydrogenase in the cotyledons of Pisum sativum L. during germination 431
R. N. KONAR and CHITRITA GUHA, Culture of Gymnosperm tissue in vitro 258
H. KONINGS, The significance of the root cap for geotropism 203
M. A. M. LACOR, Flowering of Spirodela polyrhiza (L.) Schleiden . . . 357
A. J. M. LEEUWENBERG, Notes on American Gesneriaceae IV. A new species of Resia H. E. Moore 475
ANNIE S. N. LIEM and J. VAN ANDEL, Electron microscopical observations on pollen grains of some grass species 248
J. LION, The influence of red light on geotropism of decapitated Avena coleoptiles 416
J. LION, The influence of green light on geotropism of Avena coleoptiles 437
G. MEIJER, Rapid growth inhibition of Gherkin hypocotyls in blue light 9
J. G. DE MOLENAAR, A contribution to the phytogeography of the Angmagssalik area, East Greenland 333
J. G. DE MOLENAAR, Bryophytes collected during the first Dutch botanical east Greenland expedition to the Angmagssalik area in 1966 340
P. H. NIENHUIS, The algal vegetation of a brackish inland water-basin in the Netherlands (Gat van Ouwerkerk) 26
M. A. NUÑES, J. F. BIERHUIZEN and C. PLOEGMAN, Studies on productivity of Coffee. I. Effect of light, temperature and CO_2 concentration on photosynthesis of Coffea arabica 93
J. VAN OVERBEEK and M. IONA R. MASON, Dormin and cytokinin: Growth regulation of Lemna 441
A. J. VAN DER PLAATS-NITERINK, The occurrence of Pythium in the Netherlands I. Heterothallic species 320
B. POLAK, Peat under a table-shaped drift sand mound in the northern Veluwe (Hulshorst) 33

J. ROMBACH and C. J. P. SPRUIT, On phytochrome in Lemna minor and other Lemnaceae 445
H. K. SETH, The fungus genus Kernia with the description of a new species 478
J. SIMONS and M. VROMAN, Some remarks on the genus Vaucheria in the Netherlands, ... 461
G. K. SLIM and A. KOOPMANS, Some data on the karyotypes of Stellaria nemorum L. ssp. nemorum and Stellaria nemorum L. ssp. glochidisperma Murb. in the Netherlands 90
J. L. VAN SOEST, New Taraxacum species and forms from Turkey 483
C. G. G. J. VAN STEENIS, Notes on Bredemeyera (Comesperma) with a new papuan species and the Australian species listed (Polygalaceae) . . 373
